

Welcome to
a new dimension!

Introducing PMD[vision][®]

PMDTechnologies GmbH is the world's leading supplier of integrated circuit technology for time-of-flight (ToF) imagers. We are a true leader – a market leader, solutions and technology leader. PMDTec is a subsidiary of Audi Electronics Venture GmbH and ifm electronic gmbh.

Our business is the development and commercialization of smart optical systems for 3D range measurement, based on our PMD technology (Photonic Mixer Device). We provide innovative solutions for automotive, industrial automation and consumer applications.

For the future we have set ourselves ambitious goals. To achieve them, we want to strengthen our sales and business development team. We offer one open position as:

Senior Business Development Manager – Consumer Electronics (m/f)

Job Description:

As Senior Business Development Manager – Consumer Electronics at PMDTechnologies GmbH you are responsible for the acquisition of long-term sustainable partnerships with key suppliers in crucial markets for our business as outlined above.

Additionally, your focus will be to win and take care of new strategically important customers and strategic alliances in the consumer electronics market respectively.

All personnel of the business development division at PMDTec work in close coordination with the technical development division to generate the best possible added value and ideal benefit for our customers.

At PMDTec we highly value our customer's opinion! Hence, the business development division generates technical specifications for new product developments directly from our customers.

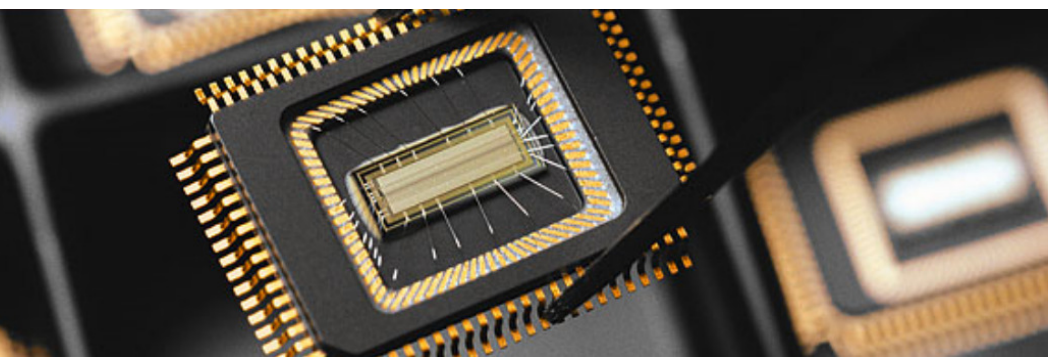

Requirement profile:

- Excellent communication skills in Mandarin (business fluent – native speaker preferred) and English/German language
- Enjoys working abroad in our PMD office in China/Taiwan
- High flexibility and willingness to travel, for instance to and within Asia and in case to the USA
- Intercultural knowledge
- Familiarity with German and Chinese business culture and etiquettes
- Experienced in dealing with large and demanding OEM/ODM customers in the consumer market
- Competent knowledge and excellent contacts in the consumer electronics market
- At least 10 years of professional sales and business development experience

If you are ready to join our sales and business development team, please send your application containing a possible starting date and your salary expectation to:
